Below you will find a summary of the change to WITS for the 18.8-18.10.1 release (which took place 7/1/2016). When these changes are made in Idaho-Mountain and Idaho-Pacific, the top left portion of your screen will say 18.10.1

1. Staff Module: Under Professional Qualification when the category of License is selected, the new value of "Other" displays. When “Other” is selected, information is required to be entered in the "Other Description" field.

2. There are several enhancements to the Follow Up screen and process in WITS. Documentation will be available on the WITS website by July 8, 2016.

3. Diagnosis dropdowns and reports now reflect the full/standard CMS ICD-10 descriptions.

4. Clinical Dashboard: When user has the "Clinical Dashboard Oversight" role, it allows user to view and select the entire staff to access all the clients on the Clinical Dashboard in the current agency.
